

FREEDOM FOR WOMEN, FREEDOM FOR IRAN

The women taking to the streets in Iran today show us a path of dignity, of life's defense and freedom. With them, many men tired of repression, hatred and violence are demonstrating in a theocratic State where every expression of freedom is repressed. We are with them, with their hopes and their courage that does not bend despite dozens of deaths due to the persecution.

The Iranian state, which supported the dictator Assad in the massacre of Syrian people and that now supports Putin in the war against Ukraine, is always ready to sacrifice human lives in order to impose its power.

We heed the international appeal to demonstrate on October the 1st for freedom in Iran and we urge solidary people, those who care about humanity, women and men of good will, to do so everywhere.

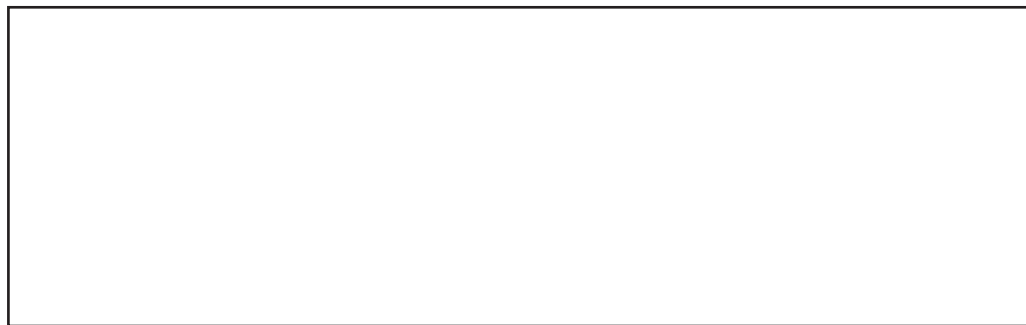

A cry for freedom echoes today from Iran to Kurdistan, we must welcome it in this country as well. Against the culture of hatred and violence, war, male chauvinism and racism let us unite to affirm a culture of shared good and pacification among peoples.

Solidarity, union and meeting each other alongside those who today struggle in Iran can be a first step to seek together a better life for all.

Women life freedom for a free Iran
